About BRUSH Theatre Education Program

BRUSH Theatre believes in the little child everyone has inside who loves to live out art in life. We vision the inner child growing into a powerful creator through boundless forms of art, the reason why children are our favorite audience!

Inspiring children all over the world from different socioeconomic, and geographic backgrounds, we want the creative process to move on even after the show! We made this workbook so children can further their imaginations and ideas about the show.

Open the book, and get ready to create your own YAO YAO!
